

Achieving an Everyday Life: ACC's role in Enabling Injured People to Attain their Life Goals

Dr Jan White, Chief Executive,
Accident Compensation Corporation

30 October 2006

ACC's Strategic Direction

- 1.7 million claims
- 240,000 moderate claims
- 80,000 complex claims
- 3,000 ongoing lifetime claims
- More intensive management for 15% of claims

Rehabilitation Improvements 2000-2006

- Number of claimants requiring help > 12 months down 50%
- 87% back at work in 6 months (down 50%)
- Average time off work under 3 months (down 50%)
- 93% rehabilitated by 12 months

Rehabilitation Framework

Vision

Principles

Outcomes

Key elements

Framework Vision

Achievement of an everyday life

Framework Principles

1. Listen to and understand the person
2. Work with the person towards agreed rehabilitation pathway
3. Mobilise support and services to help person achieve everyday life

Moving Towards

1. Sustainable employment
2. Supported independence
3. Integrated service model
4. Comprehensive, opportune assessment
5. Quality evidence-based treatment & rehabilitation
6. Integrated purchasing strategy

Working Together

- Home Health Association
- Ministry of Health
- DHBs
- ACC relatively small player in sector
- Co-ordinated approach
- Sustainable answers

Thank You

PREVENTION. CARE. RECOVERY.
